VERIFICATION OF WATER PRESSURE

PLANNING AND DEVELOPMENT
BUILDING DIVISION
119 PALO PINTO ST
817-598-4284

Location of Service:_____
ADDRESS

Reason for Inspection:
New home construction……..□
Existing service ……..□
Major renovation or expansion of distribution facilities……..□

I, _____, upon testing the water pressure of the private water distribution facilities water supply do hereby certify the following to the best of my knowledge:

Compliance	Non-compliance	Test	
☐ _____psi	☐ _____psi	(1st) 7-9 AM	*Water pressure 80 psi or less?*
☐ _____psi	☐ _____psi	(2nd) 11am-1pm	*Water pressure 80 psi or less?*
☐ _____psi	☐ _____psi	(3rd) 3pm-5pm	*Water pressure 80 psi or less?*
☐	☐	Non-compliance equals PRV and expansion tank Required	***Pressure Reduction Valve Installed?*** ***YES*** ☐ **Thermal Expansion Tank Installed?** ***YES*** ☐
City Inspector _____- Pressure test taken on ____/____/____ @ ___:____ am pm Pressure _____psi			
International Plumbing Code Section 604.8 Water-pressure reducing valve or regulator. Where water pressure within a building exceeds 80 psi (552 kPa) static, an *approved* water-pressure reducing valve conforming to ASSE 1003 with strainer shall be installed to reduce the pressure in the building water distribution piping to 80 psi (552kPa) static or less.			
International Plumbing Code Section 607.3 Thermal expansion control. A means of controlling increased pressure caused by thermal expansion shall be provided where required in accordance with Sections 607.3.1 and 607.3.2.			
International Plumbing Code Section 607.3.1 Pressure-reducing valve. For water service system sizes up to and including 2 inches (51 mm), a device for controlling pressure shall be installed where, because of thermal expansion, the pressure on the downstream side of a pressure-reducing valve exceeds the pressure-reducing valve setting.			
International Plumbing Code Section 607.3.2 Backflow prevention device or check valve. Where a backflow prevention device, check valve or other device is installed on a water supply system utilizing storage water heating equipment such that thermal expansion causes an increase in pressure, a device for controlling pressure shall be installed.			

I recognize that this document shall become a permanent record of the property address and that I am legally responsible for the validity of the information I have provided.
